

# Measure a Sliding Screen Door

When old screen door frame is missing

For Type "U" head track:  
There are two method on how to measure.  
Always measure to nearest 1/16"

First method  
Measure as shown  
"#1"  
Then add 1/4" to arrive to  
**NET DOOR HEIGHT**

Second Method  
Measure as shown  
"A"  
Then subtract 1/4" to arrive at  
**NET DOOR HEIGHT**

Measurements of actual door:

**W \_\_\_\_\_" x H \_\_\_\_\_" = NET DOOR SIZE**

For Type "T" head track:  
Measure as shown  
"B" ( to nearest 1/16")  
**NEXT DOOR HEIGHT**
